

Green Building for Building Professionals

The National Association of Home Builders' Certified Green Professional™ designation recognizes builders, remodelers and other industry professionals who incorporate green building principles into homes— without driving up the cost of construction. Classwork leading to the designation provides a solid background in green building methods, as well as the tools to reach consumers, from the organization leading the charge to provide market-driven green building solutions to the home building industry. Techniques are discussed for competitively differentiating your home products with increased indoor environmental quality as well as energy and resource efficiency.

Important Information

Certified Green Professional Requirements

Complete the Green Building for Building Professionals course

Complete (or have already completed) the Business Management for Building Professionals course
2-years of industry experience

Class Materials

Included in your tuition are the required course materials including books and student guides. These materials will be provided to you upon arrival at the class.

After completing the required coursework...

The Hickory-Catawba Valley HBA will mail you the results of your test. It will take 4-5 weeks to get the results.

After receiving confirmation that you have passed the tests, submit the Certified Green Professional Designation application and graduation fee to NAHB. You can download the application at www.hickoryhba.com under the News & Events section. It can take up to 4 months for NAHB to process your application and get back to you.

Use of CGP logo, etc.

You cannot use the Certified Green Professional logo or say that you are a Certified Green Professional until NAHB has processed your application and you have received your graduation packet. Do not use the logo or say that you are a Certified Green Professional in your advertising until you receive confirmation from NAHB that you are a CGP.

Cancellation, Withdrawal and Refund Policy

If the Hickory-Catawba Valley HBA finds it necessary to cancel the Green Building for Building Professionals course, registered attendees are entitled to a full refund.

Students who would like to withdrawal from the Green Building for Building Professionals course can do so up to 72 hours prior to the start of the first day of class and will receive a complete tuition refund.

Students who cancel within 72 hours of the start of the first day of class will not receive a refund, but can transfer their tuition fees to any other course offered by the Hickory-Catawba Valley HBA. Please note that you cannot transfer tuition to an NAHB course hosted by a different HBA. Local HBA works independently of each other to bring these courses to you. We cannot transfer your tuition to another HBA.
